## Financial Report

Fall 2010

**Dear Ministry Partners,**

*For many years we have been in the process of preparing for aviation service in a foreign country, and we are now excited to be a part of the team reaching remote tribal groups in Mexico with the gospel. We again want to send out a sincere "thank you" to the many of you who have been a part of this for so many years through sacrificial giving and by faithfully praying. I hope you are as excited as we are about what God is doing in Mexico, and about the ways that we can support the church planting efforts.*

*As Kari and I prepare to leave our home country and move our family to Mexico, we are struck by the huge undertaking this has become. Much more than willing hearts are required to make this happen. And that brings me to the purpose of this letter...to give a financial report on our status and what is required to first, get us to Mexico, and second, keep us there. These two issues exist in the form of outgoing costs and a monthly budget.*

*I have included in this letter some of the things for which our monthly budget will be used, as well as a list of outgoing*

*projects. We will continue to keep you informed on progress made and our financial status since we have all invested so much in this ministry.*

*The monthly budget will include the basics like rent, utilities, food, necessities, kid's school, and vehicle insurance premiums, etc. This makes up about one third of our monthly budget. Since our tax status is self-employed, another third goes toward employment benefits, including health insurance, retirement, and social security, federal, state, and Mexican federal and state taxes. The last portion of the budget includes field business expenses, like travel costs, visas and vehicle permits, administration costs, furlough costs, and any team expenses.*

*I would briefly like to share my heart concerning this team expense. United Indian Mission is able to offer missionaries in Mexico a very low hourly rate for the use of airplane, and this is due largely to the fact that many of the pilots subsidize the program from their own monthly budgets as part of their tithe. This is something that Kari and I desire to be a part of as well. The airplane is a very important tool in the church planting process, by making travel much more efficient and much faster, as well as providing a much greater margin of safety for the missionaries in contingency ~~matters~~ as well as in medical emergency issues that may arise. Our desire is to keep the cost of the airplane low so it is more affordable to the missionaries we are there to support.*

*With this in mind, we are trusting the Lord for 100% of our budget so we can be more effective in our ministry. This increases our effectiveness in the flight program, as well as other opportunities that God brings our way. And, this is one way your giving has a direct impact on church planting efforts in Mexico. Again, thank you so much for your part in our ministry!*

*You are a much needed part of the team!*

**After this, I heard the LORD ask, "Is there anyone I can send? Will someone go for us?"**

**"I'll go," I answered. "Send me!" Isaiah 6:8**

## Financial Details

### Monthly Budget

100% of Budget

Currently at 54%

*\*\*Many people when asking how they can be a part thought they had to give hundreds of dollars to make a difference. Consider this illustration: It takes only four people giving \$25.00/month to equal \$100.00/month. 10 people giving \$100.00/month already equals \$1000.00/month. No gift is too small.\*\**
